

THE CHARITY RUNNER

"My goal is to educate normal people around all aspects of running, focusing on balancing training without impacting busy lifestyles. Regardless of distance run, the most important thing is to build strong foundations. I need to warn you though, as there are some side effects to my approach. Not only will you perform better than you imagined, but your body will become unbreakable and the likelihood is you will look better naked."

Running should be seen as more than an A to Z process & destination. It's far more than that. The health benefits are significant. Not only the physical benefits, including stronger muscles, stronger cardiovascular system, but also with something often overlooked. Our mental health. Giving to yourself, to allow you to give to others. Having time to yourself, without pleasing others, without distractions, is one of the most liberating and powerful things you can do. Giving yourself the ability to breathe, to think & dream without the opinion of others, gives you freedom to put things into perspective.

We need to fuel our efforts & aspirations, so these pages will empower you to take control of your nutrition. Enjoy every bite and every mile run.
